

MAYUR JADHAV

Full Stack Software Developer

mayurjadhav1266@gmail.com | 9284465612 | Pune, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

OBJECTIVE

Entry-level Software Developer with strong programming fundamentals and hands-on experience building full-stack applications using Node.js, Express.js, FastAPI, React.js, and MongoDB. Strong analytical and problem-solving abilities backed by core CS fundamentals in DSA, DBMS, and OS. Seeking a full-time opportunity at a product-based company.

SKILLS

Programming Languages: Java, Python, JavaScript, TypeScript, SQL

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, Operating Systems, DBMS

Backend: Node.js, Express.js, FastAPI, REST APIs

Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS

Database: MySQL, MongoDB, PostgreSQL, Supabase, Redis

AI Integration: OpenAI API, Google Gemini API

Cloud & Tools: AWS (EC2, VPC, IAM, Elastic Load Balancer), Docker, Celery, Git, GitHub, VS Code, IntelliJ IDEA

PROJECTS

RepoHub — GitHub Developer Analytics Platform

React, FastAPI, PostgreSQL, Redis, Celery, GitHub API, Docker — [GitHub](#) | [Live Demo](#)

- Built a GitHub analytics platform using FastAPI and React, implementing GitHub OAuth, JWT-based protected APIs, token management, and repository synchronization.
- Implemented Celery + Redis asynchronous processing to handle GitHub API requests and repository imports without blocking FastAPI requests, with rate-limit/error handling.
- Developed analytics pipelines for commits, PRs, reviews, issues, releases, contributors, languages, and branches, generating developer metrics such as commit frequency, streaks, coding hours, and review activity.

IPQuest — Gamified Intellectual Property Rights Learning Platform | Published Patent

Node.js, Express.js, MongoDB, OpenAI API — [Live Demo](#)

- Built a full-stack learning platform (Node.js, Express.js, MongoDB) delivering interactive IP education through gamified quizzes, with RESTful APIs for content and real-time quiz functionality.
- Integrated an AI-powered chatbot using the OpenAI API to provide contextual explanations and enhance user engagement and learning outcomes.

MediBook — Doctor Appointment Booking System

FastAPI, MongoDB, ReactJS — [GitHub](#) | [Live Demo](#)

- Engineered a full-stack healthcare platform using FastAPI, MongoDB, and ReactJS, applying REST architecture and modular backend design principles.
- Implemented JWT authentication, CRUD operations, database indexing, and API validation for secure and scalable appointment management.

AI-Integrated Chat Application | Real-time Chat + AI Assistant

Node.js, Gemini API — [GitHub](#) | [Live Demo](#)

- Built a real-time chat application in Node.js that lets users message friends directly and also chat with an integrated AI assistant in the same interface.
- Integrated Google's Gemini 3.5 Flash model as the AI conversational engine, accessed through the OpenAI SDK/API format; deployed live frontend and backend.

PROFESSIONAL EXPERIENCE

Web Development Intern — Sumago Infotech, Nashik

- Developed responsive web pages using HTML, CSS, and JavaScript, applying DOM manipulation and event handling.
- Gained exposure to SDLC, debugging, version control, and automation basics with Python scripting.

Data Analytics Intern — Oasis Infobyte, Remote

- Performed Exploratory Data Analysis (EDA) and data cleaning using Python and Excel, improving data quality through preprocessing and validation.
- Built basic Tableau dashboards to visualize trends and support weekly, team-driven decision-making.

EDUCATION

Bachelor of Engineering — Information Technology 2023 – 2026

JSPM's Jayawantrao Sawant College of Engineering, Pune | GPA: 7.79

Diploma — Computer Technology 2020 – 2023

K K Wagh Polytechnic, Nashik | GPA: 78.91%

PUBLICATIONS

Patent: IP Quest — IPR Gamified Learning Platform

- Published a patent on an interactive platform for learning Intellectual Property Rights; uses quizzes, puzzles, and games to improve engagement and conceptual understanding.
